

Investec Bank (Mauritius) Limited

Unaudited financial reports for the nine months ended 31 December 2010

This document includes salient financial information in accordance with the Bank of Mauritius Guideline on Public Disclosure

Unaudited financial report for the nine months ended 31 December 2010

The unaudited financial report for the nine months ended 31 December 2010 has been prepared in accordance with the Bank of Mauritius Guideline on Public Disclosure of Information. The annexed unaudited report including the explanatory notes are in conformity with International Financial Reporting Standards (IFRS).

An overview of the bank's performance

The bank posted a profit after tax for the nine months ended 31 December 2010 of USD 12.5 million (2009: USD 70.8 million). This was largely due to a decrease in net operating income as detailed below.

Net operating income for the nine months ended 31 December 2010 amounted to USD 20.9 million compared to USD 77.1 million for the same period in the previous year. This was primarily due to the following:

- Operating income for the same period last year included foreign exchange gain of USD 48.3 million, out of which USD 42.7 million resulted from the change in functional currency;
- The same period last year included mark-to-market gains on derivatives of USD 9.3 million as compared to mark-to-market losses of USD 8.1 million in the current period;
- Net fair value gain of USD 15.1 million on the investment portfolio during the current period as compared to a loss of USD 9.7 million in the period ended 31 December 2009;
- An impairment loss of USD 13.1 million on a loan to an associate was realised in the current period.

Loans and total advances to customers increased by 11.6% from USD 511.5 million as at 31 March 2010 to USD 570.9 million as at 31 December 2010. External deposits decreased by 17.9% from USD 488.1 million as at 31 March 2010 to USD 400.7 million as at 31 December 2010 in line with the bank's strategy of reducing excess liquidity held during the financial period.

Related party transactions, policies and practices

The bank adheres to the Bank of Mauritius Guideline on Related Party Transactions issued in January 2009. All transactions with a related party are carried out on terms and conditions that were at least as favourable to the bank as the market conditions prevailing for prime clients at that time.

The board has set up a Conduct Review and Risk Policy Committee (CRRPC) which consists of three non-executive directors. The CRRPC meets at least once every quarter and reviews all transactions initiated in the quarter under review. After each meeting the matters reviewed by the CRRPC are reported to the board of directors. The bank reports on the proceedings of the CRRPC during the year to the Bank of Mauritius on a yearly basis.

As at 31 December 2010, the total on and off balance sheet credit exposure to related parties amounted to USD 62.7 million (31 March 2010 - USD 67.8 million) representing 7% (31 March 2010 - 6.3%) of the bank's total exposure. The credit exposure to the six related parties with the highest exposure amounted to USD 59.4 million (31 March 2010 - USD 57.7 million) representing 26% (31 March 2010 - 25.3%) of the Tier 1 Capital and all the related party transactions were within the regulatory limits as recommended in the abovementioned guideline. During the nine months ended 31 December 2010, USD 13.1 million was impaired in respect of a loan to an associate.

Risk management

In the ordinary course of business operations, the bank is exposed to a number of risks, including credit, market, liquidity, operational, legal and reputation risk. Various committees and forums have been set up to measure, monitor and mitigate these risks.

Prospects

The bank expects to achieve a reasonable level of operating income, in line with its objectives.

David M Lawrence Chairman Board of directors

Dated: 10 February 2011

1

Craig C McKenzie Chief executive officer

Notes to the unaudited financial accounts for the nine months ended 31 December 2010

1. General information

Investec Bank (Mauritius) Limited (the "bank") is a public company incorporated and domiciled in the Republic of Mauritius on 20 April 1990 and established as a wholly-owned subsidiary of Investec Bank Limited ("IBL") in 1997. The bank's principal activity is the provision of banking services. Its registered office is situated on the 6th Floor, Dias Pier Building, Le Caudan Waterfront, Caudan, Port Louis, Mauritius.

2. Significant accounting policies

(a) Statement of compliance

The financial reports for the nine months ended 31 December 2010 have been prepared in accordance with Bank of Mauritius Guideline on Public Disclosure of Information and International Financial Reporting Standards (IFRS).

(b) Basis of preparation

The reports are presented in United States Dollar.

The reports have been prepared using the same accounting policies as those applied in the accounts for the financial year ended 31 March 2010.

(c) Functional currency of the bank

With effect from 1 April 2009, the bank has changed its functional currency from South African Rand ("ZAR") to United States Dollars ("USD") and it is now operating as a USD-based business.

Notes to the unaudited financial accounts for the nine months ended 31 December 2010

3. Related party transactions

| USD'000 | 31 Dec 2010 | 31 Dec 2009 | 31 March 2010 |
|---|-------------|-------------|---------------|
| Net fair value of derivatives held with group companies | (28,600) | 5,388 | 16,846 |
| Interest income | 1,064 | 7,899 | 13,515 |
| Interest expense | 7,069 | 5,527 | 14,352 |
| Loans and advances to key management personnel | 27 | 21 | 39 |
| Deposits from key management personnel | 330 | 1,004 | 862 |
| Net amount due to group companies | (87,968) | (126,424) | (158,739) |

Terms and conditions of transactions with related parties

The above mentioned outstanding balances arose from the ordinary course of business. The interest charged to and by related parties are at normal commercial rates. Outstanding balances at the year-end are unsecured. For the nine months ended 31 December 2010, the bank has not made any provision for doubtful debts relating to amounts owed by related parties (31 December 2009 and 31 March 2010: Nil).

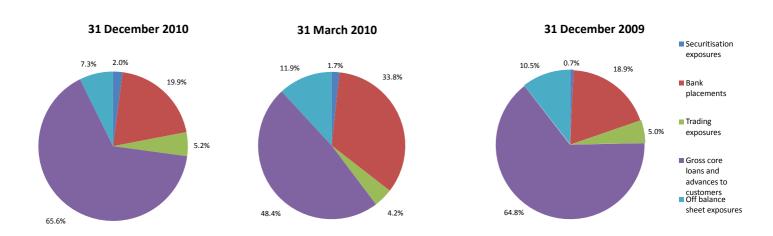

Credit and counterparty risk information

Balance Sheet risk management

The tables that follows show our liquidity mismatch. The tables reflect that loans and advances to customers are largely financed by stable funding sources.

With respect to the contractual liquidity mismatch:

No assumptions are made, and we record all asset and liabilities with the underlying contractual maturity as determined by the cash flow profile for each deal.

As an integral part of the broader liquidity generation strategy, we maintain a liquidity buffer in the form of unencumbered cash, and near cash as a buffer against both expected and unexpected cash flows.

With respect to the behavioural liquidity mismatch:

The new funding we would require under normal business circumstances is shown in the "behavioural mismatch". To this end, behavioural profiling is applied to liabilities with an indeterminable maturity, as the contractual repayments of many customer accounts are on demand or at short notice but expected cash flows vary significantly from contractual maturity. An internal analysis model is used, based on statistical research of the historical series of products, which models the point of probable maturity. In addition, re-investment behaviour, with profile and attrition based on history, is applied to term deposits in the normal course of business.

Contractual Liquidity

| At 31 December 2010 USD'million | Demand | Up to 1 month | 1 - 3 months | 3 - 6 months | 6 months to 1 year | 1 to 5 years | >5 years | Total |

As discussed above our preference for monitoring and measuring non-trading interest rate risk is economic value sensitivity. The table below reflects our economic value sensitivity to a 2% parallel shift in interest rates assuming no management intervention, i.e. the numbers represent the change in our net asset value should such a hypothetical scenario arise.

| NPV Sensitivity | Sensitivity to the following interest rates (expressed in original currencies) | | | | | | | | |
|---------------------------------|---|--------|--------|--------|--------|-----------|--|--|--|
| At 31 December 2010 'million | ZAR | GBP | USD | EUR | AUD | All (USD) | | | |
| 200bp Down | 0.21 | 0.05 | 1.76 | 0.33 | (0.37) | 1.93 | | | |
| 200bp Up | 0.00 | (0.07) | (1.98) | (0.43) | 0.37 | (2.30) | | | |
| 31 March 2010 | | | | | | | | | |
| 200bp Down | (13.83) | 0.01 | 2.01 | 0.20 | 0.38 | 0.75 | | | |
| 200bp Up | 13.73 | 0.00 | (2.25) | (0.22) | (0.38) | (1.03) | | | |
| 31 December 2009 | | | | | | | | | |
| 200bp Down | 1.57 | 0.07 | 1.33 | 0.09 | - | 0.09 | | | |
| 200bp Up | (1.18) | (0.08) | (0.55) | (0.14) | - | (1.17) | | | |
