Investec Group at a glance

Investec Dual Listed Company structure

Investec plc and Investec Limited are separate legal entities and listings, but are bound together by contractual agreements and mechanisms

Investec operates as if it is a single unified economic enterprise

Shareholders have **common economic** and voting interests as if Investec plc and Investec Limited were a single company

Creditors, however, are ring-fenced to either Investec plc or Investec Limited as there are **no cross-guarantees** between the companies

Investec Group at a glance

A domestically relevant, internationally connected banking and wealth & investment Group

- Established in 1974
- Today, an efficient integrated international business platform employing approximately 8 300+* people
- Listed on the JSE and LSE (a FTSE 250 company)
- Total assets of £58.8bn; total equity of £5.7bn; and total funds under management of £63.8bn

One Investec

Our values

Our purpose is expressed in four key values that shape the way that we work and live within society.

1

Cast-iron Integrity

We demand cast-iron integrity in all internal and external dealings, consistently and uncompromisingly displaying moral strength and behaviour which promotes trust.

2

Distinctive Performance

We employ talented people with passion, energy and stamina, who exercise common sense in achieving effective performance in a high pressure, multi-task environment.

We promote innovation and entrepreneurial freedom to operate within the context of risk consciousness, sound judgement and an obligation to do things properly

We show concern for people, support our colleagues and encourage growth and development.

3

Client focus

We break china for the client, having the tenacity and confidence to challenge convention.

We thrive on change, continually challenging the status quo and recognising that success depends on flexibility, innovation and enthusiasm in meeting the needs of our changing environment.

4

Dedicated partnership

We believe that open and honest dialogue is the appropriate process to test decisions, seek consensus and accept responsibility.

We are creative individuals who co-operate and collaborate unselfishly in pursuit of Group performance.

We respect the dignity and worth of the individual through encouraging openness and embracing difference and by the sincere, consistent and considerate manner in which we interact.

45+ years of heritage.

Two core geographies.

One Investec.

Whether you are an individual, a business, or an intermediary acting for clients, our aim is to create and manage your wealth and fuel your business growth.

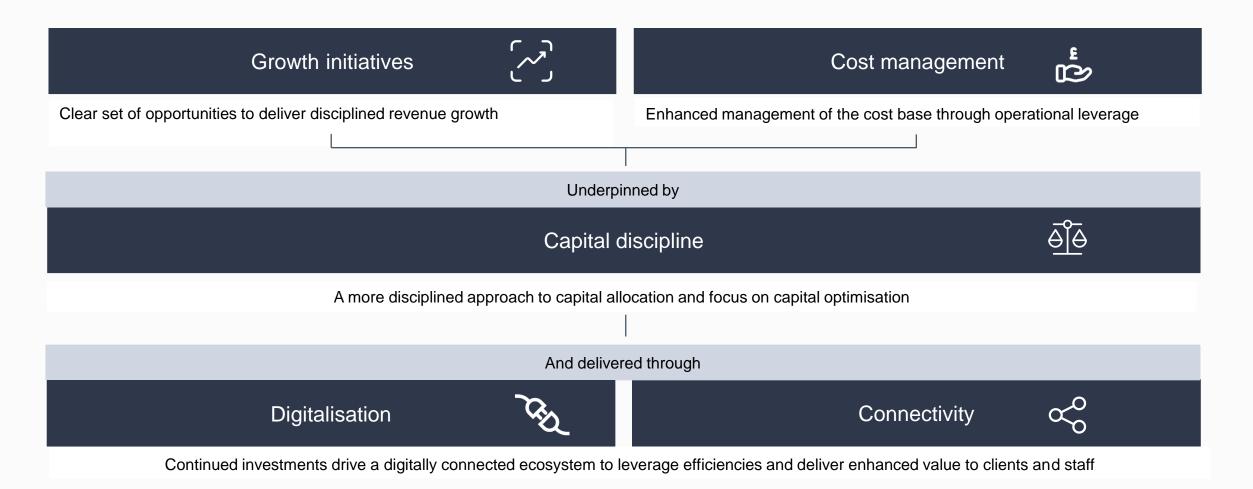

Investment proposition

Well positioned to pursue long-term growth

- Well capitalised and highly liquid balance sheet

IBL operating fundamentals

Revenue supported by resilient franchises

Annuity income* R'mn 90.0% 16,000 83.7% 80.0% 14.000 70.0% 12,000 60.0% 10,000 50.0% 8,000 40.0% 6,000 30.0% 4,000 20.0% 2,000 10.0% 0.0% 2018 2019 2020 2021 2022 Net interest income Annuity fees and commissions Other fees and other operating income Investment and associate income

Revenue versus expenses

• A diversified business model continues to support a **large recurring income base** comprising net interest income and net annuity fees and commissions, currently 83.7% of operating income (up from 74.8% in 2012)

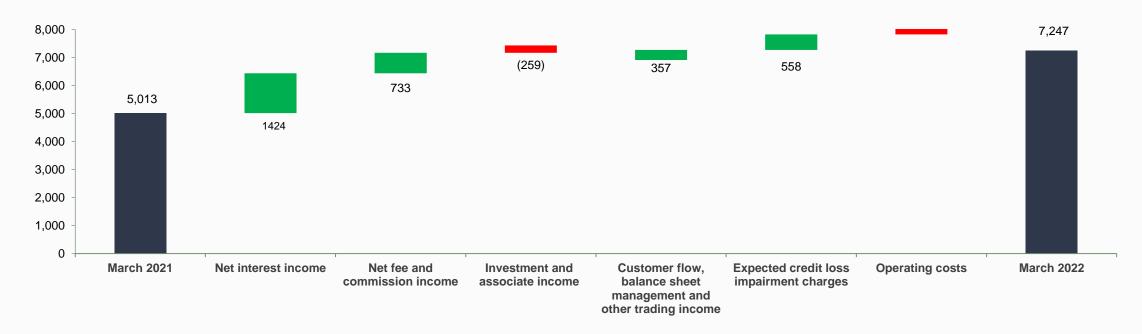

Annuity income* as a % of total income

- Total operating income before expected credit loss impairment charges increased 18.7% to R14 304 million (FY2021: R12 049 million), positively impacted by recovery in NIR given increased client activity, higher average interest earning assets, lower funding costs and continued client acquisition.
- We maintained a **disciplined approach to cost control. Operating costs** increased 9.0% to R7 048 million (FY2021: R 6 469 million) driven by higher personnel costs due to salary increases and higher variable remuneration given improved performance. The cost to income ratio for the year ended 31 March 2022 improved to 49.3% (31 March 2021: 53.7%).

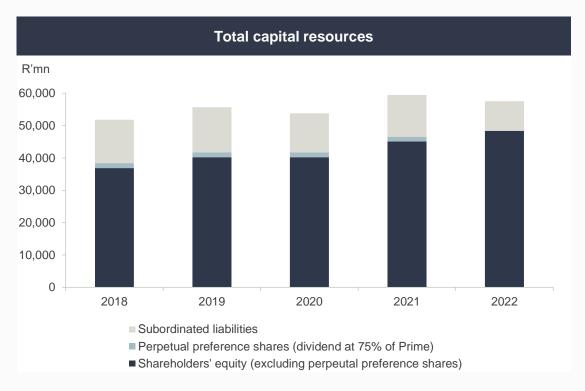

Trading income

Operating Profit

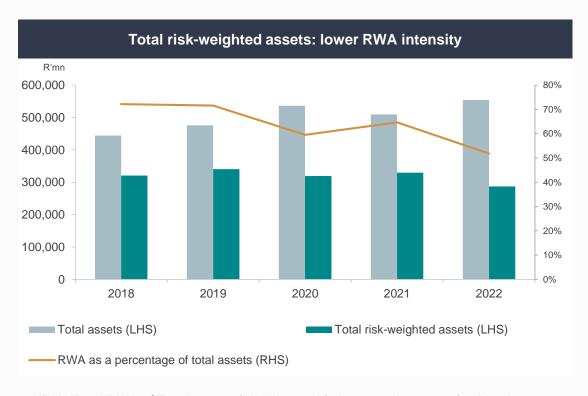

- IBL reported an increase in profit before tax of 44.6%. Our client engagement has been proactive, resulting in good client acquisition across both private and corporate clients in the period under review. Profits increased primarily due to:
 - Higher net interest income driven by higher average lending books and lower funding costs
 - Higher net fees increased on the back of higher lending and forex (FX) turnover, and recovery of point-of-sale activity relative to the prior year
 - Lower **investment income** and **associate income** is a result of higher dividend income and certain realisations off a low base, offset by higher negative FV adjustments on certain investments
 - Higher **trading income** driven by market share gains in select markets, increased client flows and benefits arising from increased market volatility. Balance sheet management and other trading income saw MTM* gains on certain interest rate and currency swaps.

Investec Bank Limited: sound capital base

- · Capital resources have increased since FY21 due to an increase in shareholders' equity
- Our total capital resources have grown by 55% since 2013 to R55 973mn at 31 March
 2022 (CAGR of 5% per year) without recourse to government or shareholder

- IBL's **Total RWAs / Total assets** (RWA intensity) decreased to 51.8% (31 March 2021: 64.6%)
- Approval was received from the Prudential Authority to adopt the Advanced Internal Ratings Based (AIRB) approach for the SME and Corporate models effective 1 April 2021.
 We have made progress in our application to adopt AIRB on remaining models where capital is still measured on the Foundation Internal Ratings Based (FIRB) approach.

Sound capital ratios and capital ratios

| Capital development | | | | | | | | |
|---|--------------|---------------------------|-------|--|--|--|--|--|
| | Increased A | FIRB | | | | | | |
| | 31 Mar 2022^ | 31 Mar 2022^ 31 Mar 2021^ | | | | | | |
| Common equity Tier 1 | 15.8% | 14.0% | 13.3% | | | | | |
| Common equity Tier 1 (fully loaded) ^{^^} | 15.8% | 14.0% | 13.3% | | | | | |
| Tier 1 ratio | 16.6% | 14.4% | 13.7% | | | | | |
| Total capital ratio | 20.0% | 18.6% | 17.8% | | | | | |
| Leverage ratio ** | 7.9% | 8.1% | 8.1% | | | | | |
| Leverage ratio** (fully loaded)^^ | 7.9% | 8.1% | 8.1% | | | | | |

*Investec Bank Limited received approval to adopt the Advanced Internal Ratings Based (AIRB) approach for the SME and Corporate models, effective 1 April 2021. We present numbers on a pro-forma basis for 31 March 2021

^ Investec Bank Limited's capital information included unappropriated profits at 31 March 2022. If unappropriated profits had been excluded from capital information, Investec Bank Limited's CET1 ratio would have been 69bps lower (March 2021: 48bps lower).

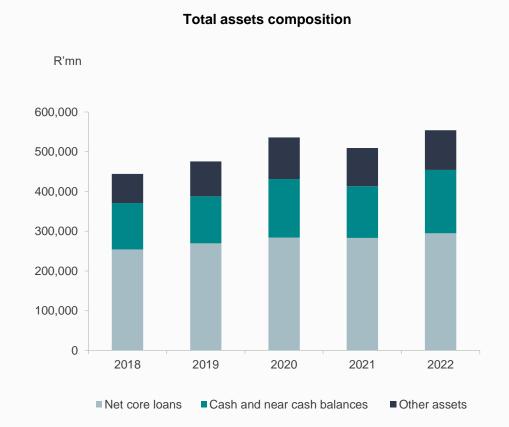

^The key difference between the 'reported' basis and the 'fully loaded' basis is primarily relating to capital instruments that previously qualified as regulatory capital, but do not fully qualify under South African Prudential Authority regulations. These instruments continue to be recognised on a reducing basis in the 'reported' figures until 2022.

- # FY2022 shown on increased AIRB Scope, all prior years on FIRB
- IBL maintained a sound capital position with a CET1 ratio of 15.8% and a total capital adequacy ratio of 20.0%
- · Leverage ratios remains robust

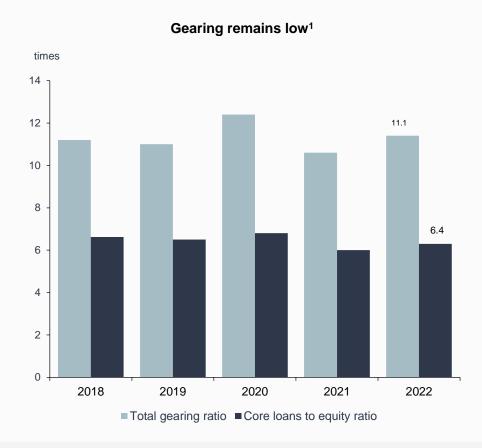

^{**} The leverage ratios are calculated on an end-quarter basis

Consistent asset growth, gearing ratios remain low

In addition, we have seen solid growth in cash and near cash balances

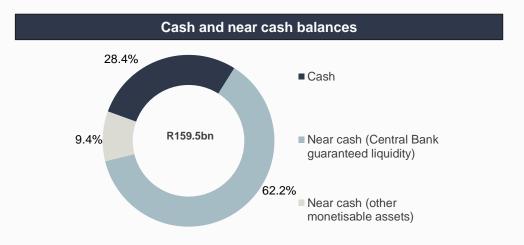

We have **maintained low gearing ratios**¹ with total gearing at 11.4x as at 31 March 2022 and an average of 11.0x since 2013.

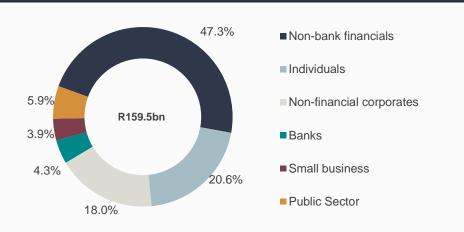

Substantial surplus liquidity

- We maintain a high level of readily available, high quality liquid assets, targeting a
 minimum cash to customer deposit ratio of 25%. Cash and near cash balances have
 increased significantly since 31 March 2013 (9.1% CAGR) to R159.5bn at 31 March 2022
 (representing 38.0% of customer deposits)
- We delivered liquidity ratios well in excess of regulatory requirements. At 31 March 2022, IBL's (bank solo) three-month average Liquidity Coverage Ratio (LCR) was 138.9%.*
- IBL's (bank solo) Net Stable Funding Ratio (NSFR) was 112.6% (ahead of minimum requirements of 100%)

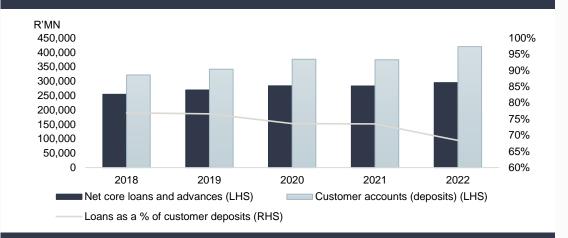

Depositor concentration by type at 31 March 2022

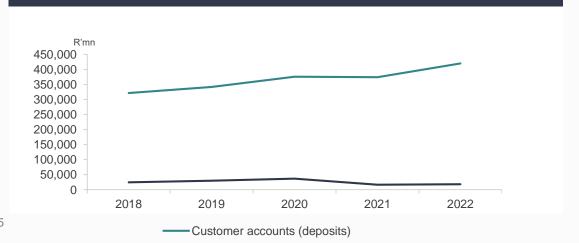

²⁴

Healthy loan to deposit ratio, stable customer deposit base

Fully self funded from customer deposits: healthy loan to deposit ratio

Total deposits: stable customer deposit base

- Customer deposits have grown by 126.7% (c.9% CAGR p.a.) since
 2013 to R420.bn at 31 March 2022
- Loans and advances as a percentage of customer deposits **amounts** to 68.4%

- We also have strong relationships with our institutional clients and our wholesale funding is diversified by product and tenor
- Fixed and notice customer deposits have continued to display a strong 'stickiness' with continued willingness from clients to reinvest in our suite of term and notice products

Diversified funding strategy

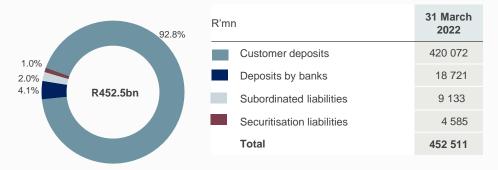

- Investec's funding consists primarily of customer deposits
- Investec adopts a conservative and prudent funding strategy

Conservative and prudent funding strategy

- Maintaining a high base of high-quality liquid assets
- 2 Diversifying funding sources
- 3 Limiting concentration risk
- 4 Minimum cash of at least 25% of customer deposits on an on-going basis

- 5 Low reliance on wholesale funding
- 6 Maintaining a stable retail deposit franchise
- Each geographic entity must be self-sufficient from a funding and liquidity standpoint

Select funding sources

- Customer deposits account for 92.8% of selected funding sources as at 31 March 2022
- Customer deposits are supplemented by deposits from banks (4.1%), subordinated debt (2.0%) and securitisation liabilities (1.0%)
- · We do not place reliance on any single deposit channel, nor do we overly rely on interbank funding
- Core loans are funded from customer deposits and interbank (dollar) funding supplements cash and near cash balances

Exposures in a select target market

- Credit and counterparty exposures are to a select target market:
 - high net worth and high-income clients
 - mid to large sized corporates
 - government, public sector bodies and institutions
- We typically originate loans with the intent of holding these assets to maturity, and thereby developing a 'hands-on' and long-standing relationship with our clients
- The majority of the bank's credit and counterparty exposures reside within its principal operating geographies, namely South Africa and Mauritius

Gross core loans and advances by risk category

| Corporate and other | | 27% |

Lending collateralised by property

| Commercial real estate investment | 16.9% |
|--------------------------------------|-------|
| Commercial real estate development | 0.7% |
| Commercial vacant land and planning | 0.2% |
| Residential real estate investment | 1.0% |
| Residential real estate development | 1.2% |
| Residential vacant land and planning | 0.4% |

High net worth and other private client

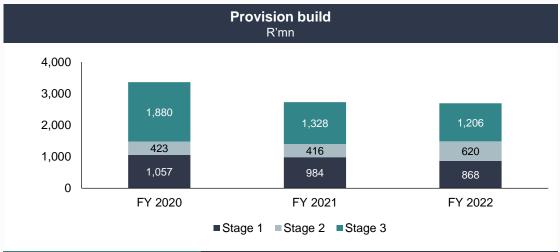

| HNW and private client – mortgages | 28.8% |
|------------------------------------|-------|
| HNW and specialised lending | 23.6% |

Asset quality

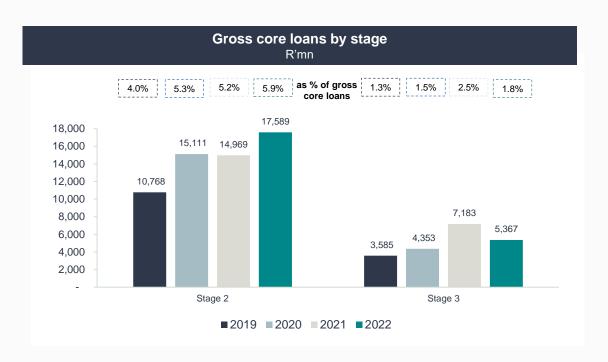

- Credit quality metrics on core loans and advances for the financial year ended 31 March 2022 are as follows:
 - **Expected credit loss (ECL) impairment charges** declined to R9 million (FY21: R567million) resulting in a credit loss ratio (CLR) of c.0bps (FY21:18 bps) due to good recoveries, limited default experience, specific ECL impairment reversals and a R71 million release from the R290 million management overlay at 31 March 2021
 - Stage 1 and 2 ECL charges also declined, given the improved macroeconomic outlook and moderate book growth. The management overlay at year end of R219 million (31 March 2021: R290 million) reflects economic uncertainty arising rom the effects of inflationary pressures and second-order economic impacts from geopolitical impacts abroad.
 - Since 31 March 2021 Stage 3 gross core loans subject to ECL decreased by R1 816 million to R5 367 million
 - Stage 3 net of ECL as a % of net core loans subject to ECL was 1.4% for 31 March 2022 (31 March 2021: 2.1%)

Asset quality metrics

| ECL coverage ratio | FY 2020 | FY 2021 | FY 2022 |
|--------------------|---------|---------|---------|
| Stage 1 | 0.40% | 0.38% | 0.32% |
| Stage 2 | 2.8% | 2.8% | 3.5% |
| Stage 3 | 43.2% | 18.5% | 22.5% |

- Stage 1 provisions decreased 11.8% from R984mn at 31 March 2021 to R868mn at 31 March 2022. As a result, Stage 1 ECL coverage ratio decreased from 0.38% to 0.32%
- Stage 2 provisions increased 49.0% from R416mn at 31 March 2021 to R620mn at 31 March 2022. Stage 2 ECL coverage ratio increased from 2.8% to 3.5%
- Stage 3 provisions decreased 9.2% from R1 328mn at 31 March 2021 to R1 206mn at 31 March 2022. Stage 3 ECL coverage ratio increased from 18.5% to 22.5%.

- Stage 2 exposures increased to 5.9% of gross core loans subject to ECL at 31 March 2022 (31 March 2021: 5.2%)
- Stage 3 exposures decreased by R1.82 billion to R5.37 billion or 1.8% of gross core loans subject to ECL at 31 March 2022 (2.5% at 31 March 2021) and is attributable to large single name exposure migrating to Stage 2 offset by new smaller Stage 3 exposures.

| S&P | BB- | BB- | BB- | ВВ | | | | | |

- IBL's ratings have remained relatively stable over many years reflecting the financial soundness of the bank over a long period of time
- Past ratings adjustments have largely been associated with changes in views by the rating agencies of the credit worthiness of the South African sovereign
- It is generally accepted that a bank cannot have a higher rating than the sovereign of the country in which it operates, unless they are largely foreign-owned and the foreign holding company is domiciled in a country with a higher rating than South Africa

Rating definitions:

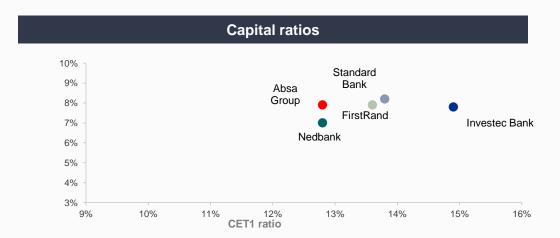

Short-term ratings should be used for investments less than a one-year time horizon and long-term ratings for periods greater than a year. Foreign currency ratings should be used when one is considering foreign denominated investments. Investments in Rand should be assessed against local currency and national ratings, (zaf) being Fitch's notation and .za for Moody's, Standard & Poor's and Global Credit Ratings notation for South African ratings.

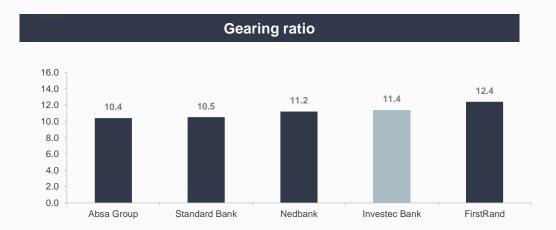

Peer group companies* (cont.)

Investec is one of the more proportionately liquid of the Big 5 banks and is a net provider of funds to the interbank market in South Africa

^{*}Source: Latest company interim and annual results available June 2022. **LCR not disclosed on a bank solo level.

^{**} Investec Bank Limited (IBL) received approval to adopt the Advanced Internal Ratings Based (AIRB) approach for its SME and Corporate models effective 1 April 2021. We have made progress in our application to adopt AIRB on remaining portfolios where capital is still measured under Foundation IRB (FIRB).

Peer group companies (cont.)

Definitions and/or explanations of certain ratios:

- A capital ratio is a measure of a bank's available capital expressed as a percentage of a bank's risk-weighted assets. It is based on regulatory qualifying capital (including common equity tier 1, additional tier 1 and tier 2 capital) as a percentage of risk-weighted assets. Assets are risk-weighted either according to the Standardised Approach in terms of Basel or the Advanced Approach
- The leverage ratio is calculated as total tier 1 capital (according to regulatory definitions) divided by total assets (exposure measure). This ratio effectively assumes all assets are 100% risk weighted and is a more conservative measure than the capital adequacy ratio. Regulators are expecting that this ratio should exceed 5%
- The gearing ratio is calculated as total assets divided by total equity (according to accounting definitions)
- . The credit loss ratio is calculated as the expected credit loss (ECL) impairment charges on gross core loans as a % of average gross core loans subject to ECL
- Stage 3/Default loans largely comprise loans that are impaired and/or over 90 days in arrears

*Investec

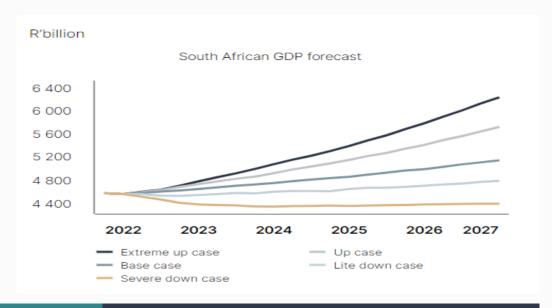

Investec Bank Limited Appendices

Macroeconomic scenarios – 31 March 2022

Key judgements at 31 March 2022

- After careful review of portfolio performance, the current design of the ECL models and updated published market data, management reduced the ECL overlay of R290 million at 31 March 2021 to R219 million at 31 March 2022 in the Private Bank portfolio.
- As in the prior year, the overlay represents a post-model adjustment designed to
 account for emerging risks identified for categories of borrowers within the commercial
 real estate (R189 million) and mortgage portfolios (R30 million). Relevant emerging risks
 include the reducing risk profile of the COVID-19 pandemic, counterbalanced by
 increasing social and geopolitical risks.
- Management will continue to review the need and basis of calculation for the overlay given the evolving situation and significant uncertainty faced with respect to the economic outlook.

| ECL | (2 694) | (2 728) |
| Stage 1 | (868) | (984) |
| Stage 2 | (620) | (416) |
| Stage 3 | (1 206) | (1 328) |
| Coverage ratio | | |
| Stage 1 | 0.32% | 0.38% |
| Stage 2 | 3.5% | 2.8% |
| Stage 3 | 22.5% | 18.5% |
| Annualised credit loss ratio | 0.00% | 0.18% |
| ECL impairment charges on core loans | (7) | (519) |
| Average gross core loans subject to ECL | 290 320 | 284 842 |
| A analysis of Stage 3 core loans subject to ECL | | |
| Stage 3 net of ECLs | 4 161 | 5 855 |
| Aggregate collateral and other credit enhancements on Stage 3 | 5 734 | 8 253 |
| Stage 3 as a % gross core loans and advances to customers subject to ECL | 1.8% | 2.5% |
| Stage 3 ECL impairments as a % of Stage 3 exposure | 50.2% | 38.0% |
| Stage 3 net of ECL as a % of net core loans and advances to customers subject to ECL | 1.4% | 2.1% |

^{*} Includes portfolios for which ECL is not required for IFRS purposes, but for which management evaluates on this basis. These are fixed rate loans which have passed the Solely Payments of Principal and Interest (SPPI) and are held in a business model to collect contractual cash flows but have been designated at FVPL to eliminate accounting mismatches (interest rate risk is being economically hedged). The underlying loans have been fair valued, and management performs an ECL calculation in order to obtain a reasonable estimate of the credit risk component. The portfolio is managed on the same basis as gross core loans measured at amortised cost. The drawn (R19 billion) exposure falls predominantly into Stage 1 (consistent throughout the period) (31 March 2021: R22 billion). The ECL on the portfolio is R76 million (31 March 2021: R105 million).
