- consider potential large exposures for prior approval, where the Bank is expected to exceed 10% of the prior reporting month's Tier 1 regulatory capital.
- where the Committee deems it necessary management may be requested to reduce the exposure to below 10%-
- In the case of private sector non-bank exposures where the Bank is expected to exceed 25% of the prior reporting month's total regulatory capital, obtain prior written Board and Prudential Authority (PA) approval.

- 25% of total regulatory capital is the limit for an individual large exposure to a private sector non-bank borrower or closely related group of borrowers. Exposures to a single counterparty or group of connected counterparties include all claims and transactions, both on balance sheet exposures (including credit and investments) and off-balance sheet exposures assigned to the person. Aggregate exposure, for purposes of approval and reporting to the PA, are pre credit risk mitigation.

- “Person/connected group” includes:
 - o Two or more persons, whether natural or juristic, the respective exposure to whom constitute a single exposure because of the fact that one of them directly or indirectly exercises control over the other/s; and
 - o Two or more persons, whether natural or juristic, between whom there exists no relationship or control as contemplated in subparagraph (i), but the respective exposures whom are regarded as a single exposure because of the fact that they are so interconnected that should one of them experience financial difficulties, another one or all of them would be likely to experience a lack of liquidity

 - o central government or other public sector bodies
 - o a bank
