ACCOLADES :

Consecutively, for the years 2013, 2014, and 2015 Phumelele's name has been included by the International Financial Law Review (IFLR) 1000 publication in the Leading Lawyer category in South Africa in the fields of Energy Law, Environmental Law, Mining and Infrastructure Projects, IFLR1000 are exclusive publications aimed at bringing together only those lawyers recognized by their peers and clients to be the leading figures in their specialist areas of practice.

BOARD POSITIONS

Phumelele serves as non-executive director and Trustee on various structures of prominent financial institutions such as SA Home Loans, Standard Bank, Investec, ABSA etc. He is also a shareholder and director at Quadridge Intembeko (Pty) Ltd, a Company Secretarial and Corporate Governance consultancy business based in Sandton.

WORK EXPERIENCE

Phumelele runs his own law firm based in Johannesburg and practises in the areas of litigation and general commercial law. Having completed his Articles of Clerkship with Deneys Reitz Attorneys in 1995 and working as an Associate in the firm for a while, Phumelele has further worked as a partner in the commercial law departments of some of South Africa's pre-eminent law firms such as Werksmans Inc and ENS Africa. Experience gained at those firms is vast and includes, working on major and complex energy project development and financing transactions relating to large scale power plant facilities in the wind, solar, coal, oil and gas, hydro sectors among others. Phumelele has also advised extensively in projects involving mining infrastructure construction and operations for such large mining houses as Goldfields and Goldfields Abooso, to name a few, in their large-scale project procurements, developments and operations and maintenance in South Africa and Ghana.

Phumelele's early career saw him work in the investment banking sector (as Associate in the Structured Finance Department of ABN AMRO Bank) and obtaining invaluable experience and exposure in financial regulation, credit analysis for lenders as well as in structured finance transactions especially on such products as project finance, asset securitization, export trade finance and loan syndications, among others.
