21. The investment objective as described in the Prospectus of the Company is twofold: to preserve the shareholder's capital in USD; and to give meaningful participation in the growth in international equity markets. Interest rates and credit spreads have shown significant volatility in recent months as global inflation and the prospect of recession in many countries has influenced markets. As of early September 2022, interest rates and credit spreads are at elevated levels, which in turn improves the potential equity participation of the Company over the next 5.3 years. The Investment Adviser will therefore seek to purchase some instruments (being some of the Debt Instruments as well as interest rate hedges) ahead of the product trade date in order to secure these attractive levels. I/we note that it is not possible to purchase all of the Debt Instruments ahead of trade date given the uncertain size of the trade. These instruments will be sold on to the Company on trade date at the same levels at which they are acquired. This will ensure that the Company can still meet its investment objectives even if the market yield on the Debt Instrument is lower than current levels on trade date. In addition, the interest rate hedge will ensure that the Company still benefits from any further material increases in interest rates (more than a 1% increase in the USD 5yr swap rate). I/we are aware that movement in interest rates between now and the trade date will have the following effect on the payoff and day 1 valuation in various scenarios.

Change in Debt Instrument yield	-1%	1%	1.50%	2%
Change in equity participation	-3.94%	3.94%	18.55%	33.16%
Day 1 valuation gain or loss*	3.24%	-3.24%	-3.24%	-3.24%

Note: The above indicative table assumes a total company size of USD200m on trade date. Any valuation gain or loss on day one will only be realized to the extent that the Shareholder sells prior to the end of the investment term that commences pursuant to the Prospectus.

By signing this form, the applicant acknowledges that they have received, understood and if required, taken guidance on the Prospectus, and accept that the investment is suitable to their specific investment objectives and needs.

Please note electronic signatures are only accepted using docusign.
