(iii) Estimated total expenses: Information not required

5. **PERFORMANCE OF INDEX/FORMULA/OTHER VARIABLE, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS AND OTHER INFORMATION CONCERNING THE UNDERLYING**

The Final Redemption Amount payable in respect of the Notes will be calculated by reference to the value of the Class 2013-15 Preference Share issued by Zebra Capital II Limited as of the Maturity Date of the Notes or (in the case of a redemption of the Notes other than pursuant to Condition 6(b) (*Redemption at maturity*)) as of the date of their redemption against the value of the Class 2013-15 Preference Share as of the Issue Date, all as provided in the Conditions of the Notes. The Redemption Price (as defined in the Preference Share Confirmation set out in Part C hereto) of the Class 2013-15 Preference Share will be calculated by reference to the value or level of the FTSE™ 100 Index (the "Index").

In calculating the Redemption Price of the Class 2013-15 Preference Share, the Preference Share Calculation Agent will consider whether a Trigger Event (as defined in the Preference Share Confirmation set out in Part C hereto) has occurred. If the Final Index Level (as defined in the Preference Share Confirmation set out in Part C hereto) is greater than 90 per cent. of the Initial Index Level (as defined in the Preference Share Confirmation set out in Part C hereto), then the Redemption Price of the Class 2013-15 Preference Share will be an amount equal to 148.00 per cent. of its par value.

If (i) a Trigger Event has not occurred, and (ii) the Final Index Level is less than or equal to 90 per cent. of the Initial Index Level, then the Redemption Price of the Class 2013-15 Preference Share will be an amount equal to 100% of its par value.

If a Trigger Event has occurred, then the Redemption Price of the Class 2013-15 Preference Share will reflect the decrease in the Final Index Level as compared to the Initial Index Level on a one-for-one basis.

If, on any Automatic Early Redemption Valuation Date (as specified in the Preference Share Confirmation set out in Part C hereto), the level of the Index as of the Valuation Time is greater than the relevant Automatic Early Redemption Level (as defined in the Preference Share Confirmation), an Automatic Early Redemption Event shall be deemed to have occurred and the Class 2013-15 Preference Share shall be redeemed, and the Automatic Early Redemption Price equal to the Automatic Early Redemption Amount in respect of the Class 2013-15 Preference Share shall become payable by the Company, on the corresponding Automatic Early Redemption Date (as specified in the Preference Share Confirmation). Upon such redemption of the Class 2013-15 Preference Share, the Notes shall be redeemed at the Final Redemption Amount in accordance with Condition 6(e) (*Automatic Early Redemption of Preference Shares*) of the Notes, which amount shall be payable on the day that is three Business Days following such Automatic Early

Redemption Date.

See Part C of these Final Terms for a further description regarding the calculation of the Redemption Price of the Class 2013-15 Preference Share.

The Issuer does not intend to provide post-issuance information.
