Prospective investors considering acquiring any Notes should understand the risks of transactions involving the Notes and should reach an investment decision only after carefully considering the suitability of the Notes in light of their particular circumstances (including without limitation their own financial circumstances and investment objectives and the impact the Notes will have on their overall investment portfolio) and the information contained in this Base Prospectus and the relevant Final Terms. Prospective investors should consider carefully the risk factors set out under "Risk Factors" in the Base Prospectus referred to below.
