Investec Bank plc
Issue of USD4,000,000 Kick Out Notes with Capital at Risk due 2023
under the
£2,000,000,000 Impala Bonds Programme

The Base Prospectus referred to below (as completed by these Final Terms) has been prepared on the basis that any offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of the Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of the Notes may only do so in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances. The expression "**Prospectus Directive**" means Directive 2003/71/EC (as amended by Directive 2008/11/EC, Directive 2010/73/EU and Directive 2008/78/EU) and includes any relevant implementing measures in the Relevant Member State.

Prospective investors considering acquiring any Notes should understand the risks of transactions involving the Notes and should reach an investment decision only after carefully considering the suitability of the Notes in light of their particular circumstances (including without limitation their own financial circumstances and investment objectives and the impact the Notes will have on their overall investment portfolio) and the information contained in this Base Prospectus and the applicable Final Terms. Prospective investors should consider carefully the risk factors set out under "*Risk Factors*" in the Base Prospectus referred to below.

PART A – CONTRACTUAL TERMS

This document constitutes the Final Terms of the Notes described herein for the purposes of Article 5.4 of the Prospectus Directive and must be read in conjunction with the base prospectus in relation to the £2,000,000,000 Impala Bonds Programme dated 19 July 2017, which together with the supplemental prospectus dated 11 December 2017 constitutes a base prospectus (the "**Base Prospectus**") for the purposes of Article 5(4) of the Prospectus Directive (Directive 2003/71/EC as amended by Directive 2008/11/EC, Directive 2010/73/EU and Directive 2008/78/EU) (the "**Prospectus Directive**").

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions, the Terms and the Additional Terms set forth in the Base Prospectus.

Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Base Prospectus. The Base Prospectus is available for viewing at and copies may be obtained from www.investecstructuredproducts.com and during normal working hours from Investec Bank plc, 2 Gresham Street, London EC2V 7QP, and from Deutsche Bank AG, London Branch, Winchester House, 1 Great Winchester Street, London EC2N 2DB. A summary of the offer of the Notes is annexed to these Final Terms.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS - The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("**MiFID II**"); (ii) a customer within the meaning of Directive 2002/92/EC ("**IMD**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

C.20	Type of the underlying:	The Notes are linked to an underlying instrument as further described in C.15 (<i>Effect of value of underlying instruments</i>) (the "Underlying").

Section D – Risks		
D.2	Risks specific to the issuer:	<p>In relation to Public Offers of the Notes, the Notes are designed for investors who are or have access to a suitably qualified independent financial adviser or who have engaged a suitably qualified discretionary investment manager, in order to understand the characteristics and risks associated with structured financial products.</p> <p>The following are the key risks applicable to the Issuer:</p> <p><i>Market risks, business and general macro-economic conditions and fluctuations as well as volatility in the global financial markets could adversely affect the Issuer's business in many ways.</i></p> <p>The Issuer is subject to risks arising from general macro-economic conditions in the countries in which it operates, including in particular the UK, Europe, Asia and Australia, as well as global economic conditions.</p> <p><i>The Issuer is subject to risks concerning customer and counterparty credit quality.</i></p> <p>Credit and counterparty risk is defined as the risk arising from an obligor's (typically a client's or counterparty's) failure to meet the terms of any agreement. Credit and counterparty risk arises when funds are extended, committed, invested, or otherwise exposed through contractual agreements, whether reflected on- or off-balance sheet.</p> <p>The Issuer's credit risk arises primarily in relation to its Specialist Banking business, through which it offers products such as private client mortgages and specialised lending to high income professionals and high net worth individuals and a range of lending products to corporate clients, including corporate loans, asset based lending, fund finance, asset finance, acquisition finance, power and infrastructure finance, resource finance and corporate debt securities. Within its Wealth & Investment business, the Issuer is subject to relatively limited settlement risk which can arise due to undertaking transactions in an agency capacity on behalf of clients.</p> <p>In accordance with policies overseen by its Central Credit Management department, the Issuer makes provision for specific impairments and calculates the appropriate level of portfolio impairments in relation to the credit and counterparty risk to which it is subject.</p> <p>Increased credit and counterparty risk could have a material adverse impact on the Issuer's business, results of operations, financial condition and prospects.</p> <p><i>The Issuer is subject to liquidity risk, which may impair its ability to fund its operations.</i></p> <p>Liquidity risk is the risk that the Issuer has insufficient capacity to fund increases in its assets, or that it is unable to meet its payment obligations as they fall due, without incurring unacceptable losses. This includes repaying depositors and repayments of wholesale debt. This risk is inherent in all banking operations and can be impacted by a range of institution-specific and market-wide events.</p> <p><i>The Issuer may have insufficient capital in the future and may be unable to secure additional financing when it is required.</i></p> <p>The prudential regulatory capital requirements applicable to banks have increased significantly over the last decade, largely in response to the financial crisis that commenced in 2008 but also as a result of continuing work undertaken by regulatory bodies in the financial sector subject to certain global and national mandates. These prudential requirements are likely to increase further in the short term, not least in connection with ongoing implementation issues, and it is possible that further regulatory changes may be implemented in this area in any event.</p> <p>If the Issuer fails to meet its minimum regulatory capital or liquidity requirements, it may be subject to administrative actions or sanctions. In addition, a shortage of capital or liquidity could affect the Issuer's ability to pay liabilities as they fall due, pay future dividends and distributions, and could affect the implementation of its business strategy, impacting future growth potential.</p>
D.3	Risks specific to the securities:	<p>Series 584 are Kick Out Notes with Capital at Risk, the return on which are linked to the worst performing of the indices in the basket comprising the Underlying.</p> <p>The following are the key risks applicable to the Notes:</p> <p>Capital at Risk: Kick Out Notes with Capital at Risk are not capital protected.</p> <p>The value of the Notes issuable under the Programme prior to maturity depends on a number of factors including the performance of the worst performing index in the basket comprising the applicable Underlying. A deterioration in the performance of the worst performing index in the basket comprising the Underlying may result in a total or partial loss of the investor's investment in the Notes.</p>

		<p>As such Notes are not capital protected, there is no guarantee that the return on such a Note will be greater than or equal to the amount invested in the Notes initially or that an investor's initial investment will be returned. As a result of the performance of the relevant Underlying, an investor may lose all of their initial investment.</p>
		<p>Unlike an investor investing in a savings account or similar investment, where an investor may typically expect to receive a low return but suffer little or no loss of their initial investment, an investor investing in Notes which are not capital protected may expect to potentially receive a higher return but may also expect to potentially suffer a total or partial loss of their initial investment.</p> <p>Unsecured Notes: Investors investing in unsecured Notes (including unsecured Notes which are specified in the applicable Final Terms as Notes "without Capital at Risk") are advised to carefully evaluate the Issuer's credit risk when considering an investment in such Notes. If the Issuer became unable to pay amounts owed to the investor under the unsecured Notes, such investor does not have recourse to the underlying or any other security/collateral and, in a worst case scenario, investors may not receive any payments under the Notes.</p> <p>Investment Products: The Notes are not deposits and they are not protected under the UK's Financial Services Compensation Scheme or any deposit protection insurance scheme.</p> <p>Return linked to performance of the relevant Underlying: The return on the Notes is calculated by reference to the performance of the worst performing index in the basket comprising the Underlying. Poor performance of the relevant index could result in investors, at best, forgoing returns that could have been made had they invested in a different product or, at worst, losing some or all of their initial investment.</p> <p>Downside risk: Since the Notes are not capital protected or only a portion of the capital may be protected, if at maturity the level of the worst performing index in the basket comprising the Underlying is less than a specified level, investors may lose their right to return of all their principal or all of the portion of the principal that is not protected at maturity and may suffer a reduction of their capital in proportion (or a proportion multiplied by a leverage factor) with the decline of the level or price of the worst performing index, in which case investors would be fully exposed (or, in the case of a Note where only a portion of the capital is protected, the portion of capital not protected would be fully exposed) to any downside of the worst performing index during such specified period.</p> <p>Tax: Noteholders will be liable for and/or subject to any taxes, including withholding tax, payable in respect of the Notes.</p>

Section E – Offer		
E.2b	Reasons for the Offer and Use of Proceeds:	Not Applicable. The use of proceeds is to make a profit and/or hedge risks.
E.3	Terms and Conditions of the Offer:	Not applicable.
E.4	Interests Material to the Issue:	The Issuer may be the Calculation Agent responsible for making determinations and calculations in connection with the Notes and may also be the valuation agent in connection with the reference asset(s). Such determinations and calculations will determine the amounts that are required to be paid by the Issuer to holders of the Notes. Accordingly when the Issuer acts as Calculation Agent, or Valuation Agent its duties as agent (in the interest of holders of the Notes) may conflict with the interest as issuer of the Notes.
E.7	Estimated Expenses:	Not applicable. Expenses in respect of the offer or listing of the Notes are not charged by the Issuer or Dealers to the Investor.
