# About Investec Structured Products

Investec Structured Products is the UK retail structured products division of Investec Bank plc.

Investec Structured Products was launched in 2008 and manufactures and distributes structured products for retail clients in the UK, which are only available via FCA-regulated Financial Advisers.

Investec Structured Products offers a range of structured investments (“Investment Plans”) and structured deposits (“Deposit Plans”). In the case of Deposit Plans, the deposit taker is Investec Bank plc.

Plans are offered on a tranche basis. The offer period for a tranche generally lasts between 6 and 8 weeks. When the offer period of a tranche closes (usually on a Friday), a new tranche of Plans will open on the following business day (usually on a Monday).

Since launching, Investec Structured Products has won numerous industry awards for its Plans, literature and service. Investec Structured Products has been awarded “Best Structured Products Provider” 26 times by 7 industry bodies, most recently for the eleventh time in a row at the ILP Moneyfacts Awards 2020.

# About Investec Bank plc

The Investec group (comprising Investec plc and Investec Limited) partners with private, institutional and corporate clients, offering international banking, investments and wealth management services in two principal markets, South Africa and the UK, as well as certain other countries. The group was established in 1974 and currently has approximately 8,500 employees. In March 2020, the Asset Management business was demerged and listed as Ninety One.

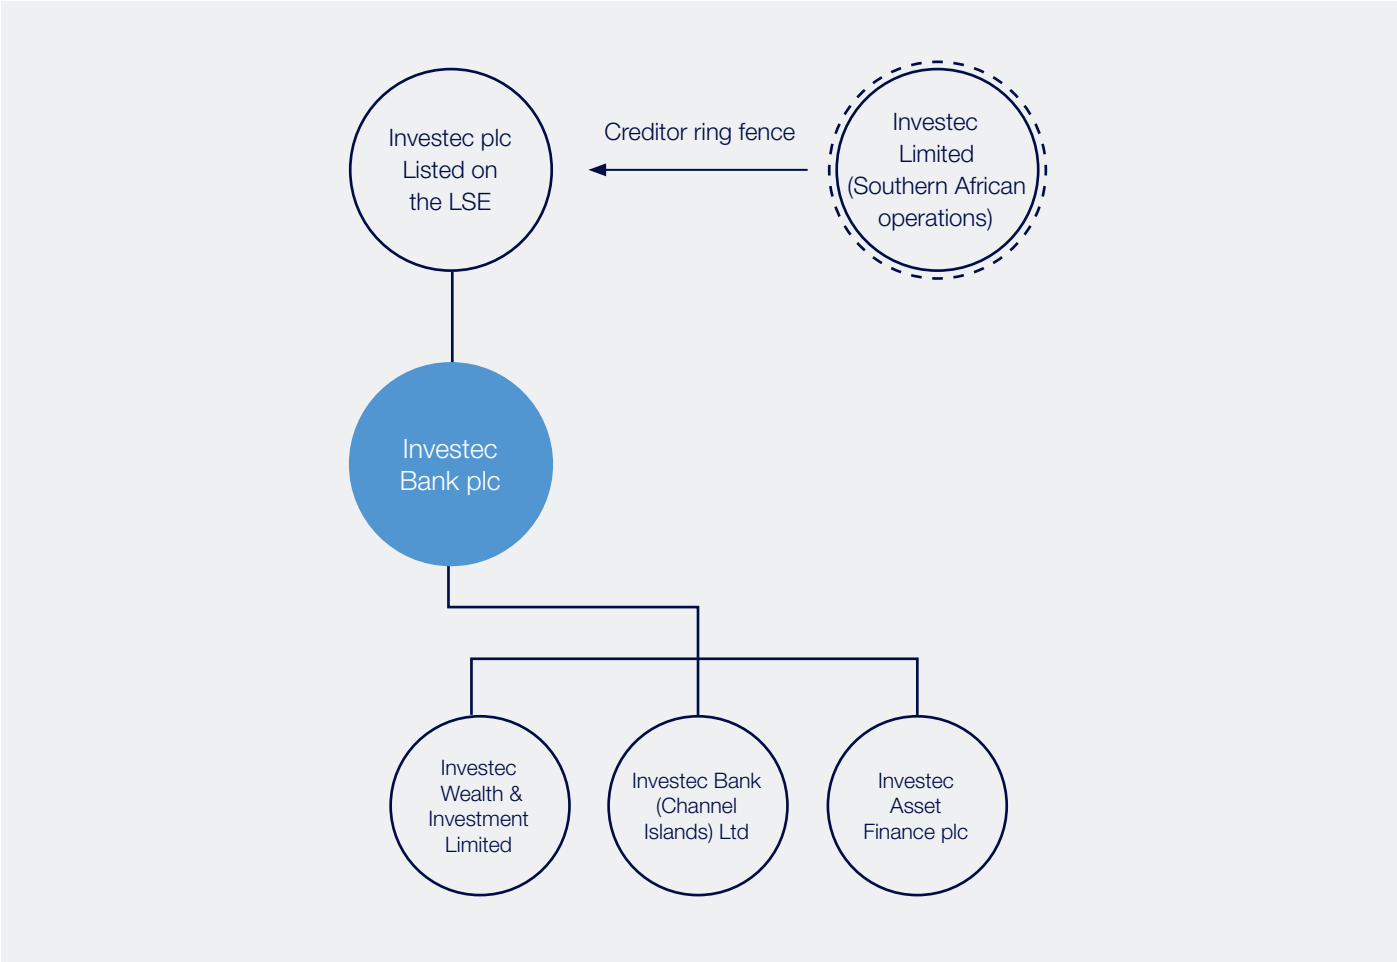

In July 2002, the Investec group implemented a Dual Listed Companies (DLC) structure with linked companies listed on the London Stock Exchange (LSE) and Johannesburg Stock Exchange (JSE Limited). Investec plc (housing the non-Southern African operations) and Investec Limited (housing the Southern African operations) form a single economic enterprise where shareholders have common economic and voting interests. Creditors, however, are ring-fenced to either Investec plc or Investec Limited as there are no cross guarantees between the companies.

Investec Bank plc is the main banking subsidiary of Investec plc (a FTSE 250 entity since 2002).

Investec Bank plc has been operating in the UK since 1992 and is regulated by the Prudential Regulatory Authority, the Financial Conduct Authority and is a member of the London Stock Exchange.

# Investec Bank plc – Liquidity position

**£6.2bn**  
(cash and near cash)

Investec Bank plc has a liquidity management philosophy that has been in place for many years.

The bank continues to focus on maintaining a high level of readily available high-quality liquid assets targeting a minimum cash to customer deposit ratio of 25%. At 30 September 2020, the bank had £6.2 billion of cash and near cash to support its activities, representing approximately 39.0% of customer deposits.

## Investec Bank plc – Cash and near cash trend

Furthermore, the bank maintains an appropriate mix of term funding, placing a low reliance on interbank wholesale funding to fund core lending asset growth.

Investec Bank plc targets a diversified funding base, avoiding undue concentrations by investor types, maturity and market source, instrument and currency. Customer deposits amounted to £15.8 billion as at 30 September 2020 (31 March 2020: £15.5 billion). The bank's loan to deposit ratio was 75.5% at 30 September 2020 (31 March 2020: 76.3%).

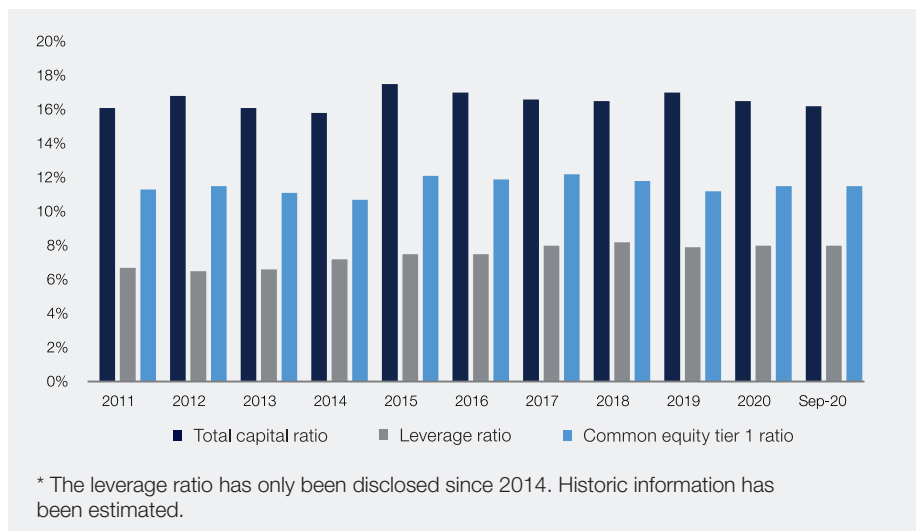

# Investec Bank plc – Capital position

Investec Bank plc holds capital in excess of regulatory requirements and intends to perpetuate this philosophy and ensure that it remains well capitalised.

The bank has never required shareholder or government support. As at 30 September 2020, the total capital ratio of Investec Bank plc was 16.2% and the common equity tier 1 ratio was 11.5%.

## Investec Bank plc – Basel capital ratios – standardised approach

The bank's anticipated 'fully loaded' Basel III common equity tier 1 ratio and leverage ratio are 11.0% and 7.7%, respectively (where 'fully loaded' is based on Basel III requirements as fully phased in by 2022). These disclosures incorporate the deduction of foreseeable charges and dividends as required by the regulations. Excluding this deduction, the common equity tier 1 ratio would be 7bps higher.

Investec Bank plc is on the Standardised Approach in terms of Basel, thus the bank's risk-weighted assets represent a large portion of its total assets.

## Capital ratio – Peer comparison

# Investec Bank plc – Gearing

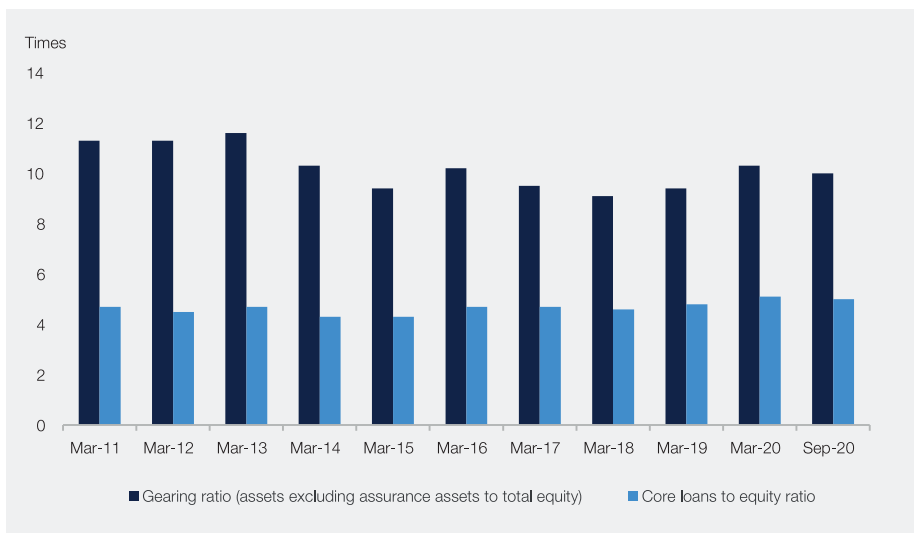

Investec Bank plc is not a highly geared bank.

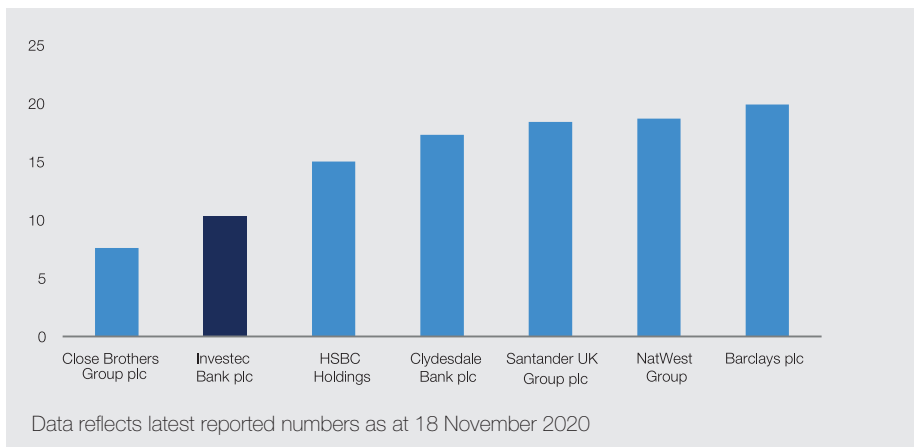

A number of banks that have come into difficulty in the past have been in excess of 40x geared.

IBP's gearing ratio is 10.3x.

# Investec Bank plc – Long term credit ratings

## Moody's – A1

On 1 February 2019, Moody's upgraded Investec Bank plc's long-term deposit ratings to A1 (stable outlook) from A2 (positive outlook) and its baseline credit assessment (BCA) to baa1 from baa2. These ratings were affirmed on 16 August 2019.

### The upgrades were the reflection of:

Investec Bank plc's successful de-risking of the balance sheet as its legacy assets continue to run-off, the shift in composition of its revenues towards lower lending risks and more stable revenue streams, primarily in the lower risk wealth management segment and Investec Bank plc's sound capitalisation and strong liquidity buffers.

## Investec Bank plc – Credit rating history

	Moody's	Fitch
	Long-term deposit rating	Long-term rating
Feb 2019	A1	BBB+
Sep 2017	A2	BBB+
Feb 2016	A2	BBB
Oct 2015	A3	BBB
May 2015	A3	BBB-
Nov 2011	Baa3	BBB-
Mar 2009	Baa3	BBB
Nov 2008	Baa1	BBB
Dec 2007	Baa1	BBB+
Mar 2007	A3	BBB+

A detailed history of Investec Bank plc's ratings is shown above. During the financial crisis Investec Bank plc was downgraded two notches by Fitch first from BBB+ to BBB in November 2008 and then to BBB- at the end of November 2011.

Similarly, Investec Bank plc was downgraded by Moody's from A3 to Baa1 in December 2007 and then to Baa3 in March 2009.

We believe that our operating fundamentals remained sound over that time and that these downgrades were largely reflective of a very negative view taken by the rating agencies on the operating environment and economic conditions during that time.

## Fitch – BBB+

24 July 2020, Fitch affirmed IBP's Long-Term Issuer Default Rating (IDR) at BBB+ and removed the Rating Watch Negative (that had been placed on IBP's ratings on 1 April 2020 following the onset of the COVID-19 pandemic) to reflect Fitch's view that IBP's ratings are not immediately at risk from the impact of the economic downturn. The outlook on the Long-Term IDR is negative to reflect the ongoing downside risks relating to COVID-19.

On 7 September 2017, Fitch upgraded IBP's Long-Term IDR to BBB+ from BBB and its VR to bbb+ from bbb. These ratings were affirmed on 20 December 2019.

### The upgrades were a reflection of:

The greater stability of Investec Bank plc's business model, the progress Investec Bank plc has made in running down its legacy assets and reducing the concentration of its loan book towards property lending, an increase in capital-light business and hence more stable earnings, while simultaneously maintaining sound capitalisation, strong liquidity and an adequate funding structure.

## Investec Bank plc – Credit Default Swaps

There is currently no liquid market for credit default swaps that reference Investec Bank plc.

Investec does not issue material amounts of wholesale debt (i.e. corporate bonds). This is because Investec raises the majority of its funding through retail & corporate deposits and therefore has a very limited requirement to access the capital markets, resulting in a relatively low number of issuances outstanding.

For this reason, there is currently insufficient need from the market for a liquid credit default swap on Investec Bank plc.
